

My FIDUCIAL.BE

Your client portal
to manage your business
and your **electronic invoices**

Using **MyFiducial.be** makes the management of your business easier

Centralise your documents and simplify your exchanges with your accountant via the online portal **MyFiducial.be**, included in your accounting mission.

Save time

View invoices and other documents in seconds, in one convenient, secure place.

Track your activity in real time

Instantly access customised dashboards to better manage your daily activity.

Optimise collaboration

Communicate more easily with your accountant so that he has all the up-to-date information.

**Accessible
on all your devices
(PC or Mac, tablet,
smartphone)**

Get ready for mandatory e-invoicing with MyFiducial.be

From 1 January 2026, the use of structured electronic invoices will be mandatory between Belgian companies subject to VAT.

These invoices **must be sent and/or received via the Peppol network**, which is already possible with MyFiducial.be!

MyFiducial.be offers access to two services:

- ✔ **VOILA by Codabox** for the reception of your electronic invoices ;
- ✔ **Kyte** for sending your electronic invoices (option).

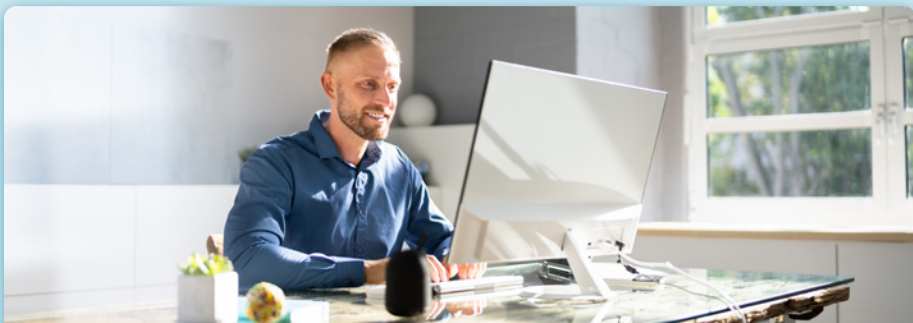

Automatically receive your supplier e-invoices with Codabox's VOILA

- ✔ **Import and automatically transmit** your invoices to your accountant
- ✔ **Receive your electronic invoices** via Peppol
- ✔ **Track your purchases in real time** for better control of costs and profitability
- ✔ **Visualise your payment deadlines** to anticipate money outflows and avoid delays

Manage and send your customer e-invoices with Kyte

- ✔ **Manage your customer invoices more easily**
 - Create and customise your invoices and credit notes (model, colour, font, currency, machine translation in 3 languages)
- ✔ **Cash faster and stress-free**
 - Send your customer electronic invoices via Peppol
 - Schedule automatic payment reminders
 - Offer multiple payment methods to your customers to speed up payments
- ✔ **Stay in control of your business**
 - Access key metrics in real time
 - Generate activity reports
